

The smartest way to heat and cool your home

A ductless heat pump system that fits in more spaces. Easy-to-use smart settings. Nice to look at.

ALL-IN-ONE

Quilt is an all-in-one solution for heating and cooling. No fossil fuels here: All electric means fewer emissions.

PERFECT TEMPERATURES

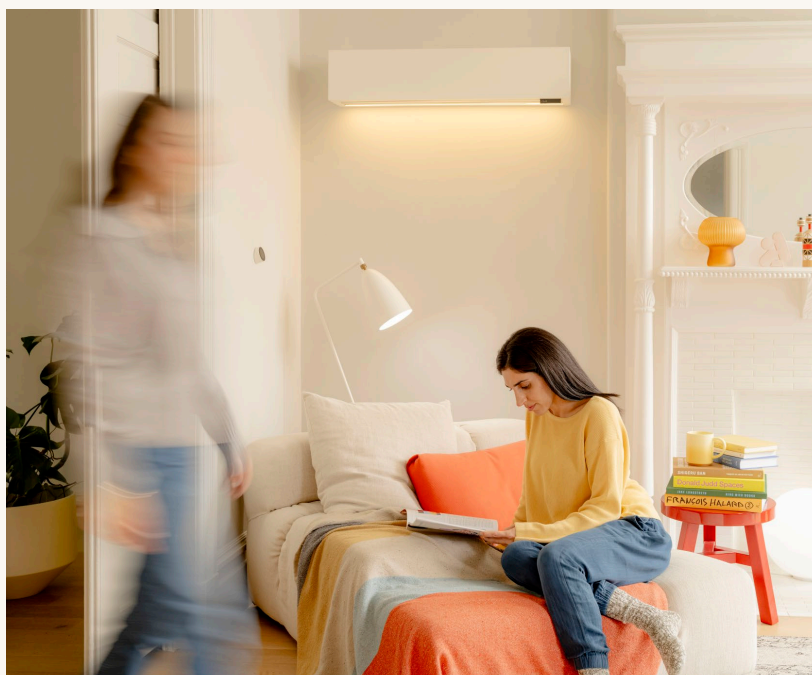

Room-by-room control lets every household member experience their own personal comfort.

SMART SETTINGS

Schedules and occupancy detection reduce energy consumption (and save money).

THE MOST EFFICIENT PICK

With industry-leading SEER2 and HSPF2 scores, Quilt sets a new efficiency standard for home climate control.

LEARN MORE

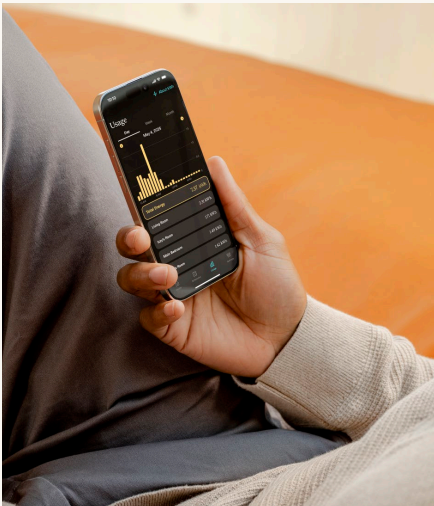

One system, lots of benefits

CUSTOMIZABLE FINISH

The front covers of Quilt's indoor units can be painted, wallpapered, and made completely your own.

INTEGRATED APP

An intuitive app lets you set schedules, review energy reports, and control your system from anywhere.

SMART THERMOSTAT

Use the touchscreen Dial to control the temperature of a single room or the whole home at once.
